

A joint venture between United Utilities, Costain and MWH

WASTE MINIMISATION AND RECYCLING POLICY STATEMENT

4Delivery Limited waste minimisation principles will be delivered by the implementation of the following objective:

- To promote and implement a practical waste minimisation strategy for the business

To support the philosophy and principles of our Waste Minimisation and Recycling Policy Statement, 4Delivery Limited will adopt a hierarchal waste management in all of our business groups.

4Delivery Limited will:

- Seek to reduce the amount of materials and resources consumed
- Minimise the production of waste
- Re-use surplus materials whenever possible
- Promote the use of recycled materials
- Dispose of waste in the most cost effective and environmentally effective manner
- Review the potential for reuse of waste material through gaining exemptions from Waste Management Licensing Regulations

The objective will be supported operationally by the implementation of the following types of task/exercise:

- Communication and publication of our Save It Campaign
- The development and implementation of a waste minimisation plan for all projects and permanent offices as an integral element of an environmental management plan
- A site based training programme on the use of resources and waste minimisation
- Waste minimisation research and demonstration projects
- Set targets for the monitoring the production and consumption of recycled materials
- A clear environmental policy on Supply Chain Management
